SUMMARY

I'm a fourth-year computer Engineering student at the Faculty of Engineering, Shoubra, Benha University, with strong interest in software development and modern technologies. Skilled in building and maintaining responsive web applications, and familiar with backend and database concepts. Experienced in hands-on training, team-based projects, and leading web-related initiatives. Looking for opportunities to contribute to real-world software solutions, expand my technical knowledge, and grow as a software engineer.

EDUCATION

Bachelor of Engineering in computer engineering

10/2021 – 06/2026

Faculty of Engineering, Shoubra, Benha University

GPA : 3.3 / 4

SKILLS

Technical Skills

c | c++ | java | oop | javascript | typescript | html | css | bootstrap | data structure | algorithm | excel | sql | api | git | github | fundamentals of network | MS Office | Angular | React js basic

Soft skills

Communication | Problem solving | Leadership | Teamwork | Adaptability

LANGUAGE

Arabic

- Native

English

- good

COURSES

Frontend Developer Intern (Angular)

05/2024 – 10/2024

Digital Egypt Pioneers

- Completed comprehensive training in Frontend development with a focus on Angular, achieving over 90% of the required learning outcomes.
- Acquired proficiency in HTML, CSS, JavaScript, APIs, Bootstrap, and Angular during the program.
- Successfully participated in team projects, showcasing strong collaboration and communication skills.

MEAN Stack Fundamentals Trainee

09/2024

ITI (Information Technology Institute)

- Trained in the fundamentals of the MEAN stack (MongoDB, Express.js, Angular, Node.js), covering the core concepts of full-stack web development.
- Acquired practical skills in building dynamic and scalable web applications by integrating frontend and backend technologies.
- Developed a solid understanding of database management with MongoDB, server-side programming with Node.js, and API creation with Express.js. Demonstrated the ability to create interactive and responsive user interfaces using Angular,

Data Analysis Intern

07/2024

Innovation Center, Benha

- Received training in the fundamentals of data analysis with a particular focus on Excel.

PROJECTS

Receipe project , Demo [🔗](#)

A responsive web app built with HTML, CSS, JavaScript, and Bootstrap that fetches meal data from API. Features dynamic search, recipe details.

Link portfolio , Demo [!\[\]\(ade0d208c4c390ddb1e4e8e15fd95186_img.jpg\)](#)

A responsive personal portfolio website showcasing projects, skills, and contact information. Features smooth animations and interactive elements.

Social media (Facebook) , Demo [!\[\]\(c140ced51dbf5d4fbee7bbef0b65b56b_img.jpg\)](#)

A Facebook clone project using HTML, CSS, and JavaScript, featuring an interactive UI with post display, It focuses on responsive design and a seamless user experience with core dynamic functionalities

Ecommerce , Source code [!\[\]\(fa0af60b6801543fcbf5ea18bb648edb_img.jpg\)](#)

An e-commerce platform built with HTML, CSS, TypeScript, Bootstrap, and Angular, featuring a responsive UI with product listings, cart, and checkout. It emphasizes modular design and a seamless, dynamic user experience.

ACTIVITIES & LEADERSHIP

Head of Web Development - IEEE Benha

- Currently leading the web development team for IEEE Banha
- Self-motivated, with a strong sense of personal responsibility.
- Excellent communication skills, both verbal and written.
- Skilled at working independently and collaboratively in a team environment.
- Managed time efficiently in order to complete all tasks within deadlines
